

Making the Cut

At the opening of Project Place's new headquarters on February 28, representatives from the group joined State Rep. Byron Rushing, Mayor Thomas Menino and Department of Neighborhood Development Director Charlotte Golar Richie. The Gatehouse facility at 1145 Washington Street includes ground floor retail, office space and 14 single-room units to be rented by homeless or formerly homeless people. Project Place moved from its Rutland Street Victorian townhouse to allow for more space to operate its programs to help people transition out of homelessness.
